PREVIEWS

On a trial basis the Monthly Catalog will list a few publications which our catalogers have had an opportunity to review in advance of publication. Advance orders may be placed for these publications. Orders will be scheduled and copies mailed as soon as stocks are received. It will not be possible to estimate the lapse of time before the publications will actually appear. All entries are tentative, as changes are sometimes made after publication has reached page proof. For this same reason prices are subject to change.

Explanation

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D. C.; if processed, publisher is issuing office. When size is not given, octavo is to be understood. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e. g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents and requests for them, if they are available, should be addressed to the issuing office.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, press releases and administrative, regional, and confidential publications are omitted.

The L. C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D. C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The sales stock includes approximately 65,000 different titles. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a semimonthly List of selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a session of Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents and reports because there are usually more than 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale, a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e. g., H. rp. 2, 80-1.

Do not use the L. C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., by coupon, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D. C.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Check list of United States public documents, 1789–1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior or inferior number (the numbers immediately following the line) from the main classification number, it not being practicable to print these numbers as superiors or inferiors in the Monthly catalog.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for many publications. These are given at the left with "L. C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards and requests for

information about them should be addressed to the Card Division, Library of Congress, *not* to the Superintendent of Documents. Checks or money orders should be made payable to The Librarian of Congress, and forwarded directly to The Librarian of Congress, Washington 25, D. C.

MONTHLY CATALOG DISTRIBUTION

The Monthly catalog is sold on subscription, price $2.25 a year, including index; foreign subscription $2.85 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEXES (ANNUAL AND MONTHLY)

An Index to the Monthly catalog will be issued at the end of the calendar year. This will contain index entries for all the numbers issued from January to December, and can be bound with the number as an index to the volume. Persons desiring to bind the catalog at the end of the year should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

A monthly index of the principal subjects is to be found at the end of each issue of the Monthly catalog.

Corrections for Previous Monthly Catalogs

February 1947. On page 132, under "Congressional set", "House Documents", 3d entry, change "No. 374" to read "No. 754".

April 1947. On page 358, 4th entry from top of page, change 1st line to read "*Nutgrass.* Seed production, viability, and dormancy in nutgrasses Cyperus".

NOTE.—The Agricultural Economics Bureau issues a series of reports relating to truck crops which, although numbered in one series (TC followed by the year and a number with a different group of hundreds assigned for each month), consists of several distinct groups as follows: Commercial truck crops for fresh market, commonly called Truck crop reports: Truck crops for commercial processing, commonly called Processing crop reports: Truck crop news: Annual summaries in December each year. Revised statistical summaries are issued at appropriate intervals covering a varying period of years. Printed summaries of these reports were published in Crops and markets prior to June 1937, but these have been discontinued. A yearly summary only is published in the January quarterly issue each year.

Topographic quadrangle maps

NOTE.—The Geological Survey makes contoured maps—three-dimension topographic maps—which are designed eventually to cover the whole United States, also Alaska, Hawaii, and Puerto Rico. The individual maps are projected to represent quadrangle areas rather than political divisions, and each map is designated by the name of some

prominent town or natural feature within that area. The scales most commonly used are 1:24,000 (1 inch=2,000 feet), 1:31,680 (1 inch=½ mile), 1:62,500 (1 inch=about 1 mile), and 1:125,000 (1 inch=about 2 miles). A general description of topographic maps and a list of the symbols used are printed on the reverse of each sheet, excepting Tennessee Valley Authority maps.

About half of the continental area of the country, excluding Alaska, has been mapped, every State being represented. Connecticut, Delaware, the District of Columbia, Hawaii, Maryland, Massachusetts, New Hampshire, New York, Ohio, Rhode Island, and West Virginia are completely mapped. Maps of the regular size are sold by the Geological Survey at 20c. each. Except as otherwise indicated, a discount of 20 percent is allowed on an order for maps, or for maps and geologic folios, that amounts to $10.00 at the retail price. In ordering, give the name and scale of each map and the State in which the area lies.

FEDERAL REGISTER DIVISION

NOTE.—The archivist of the United States acting through this division established by him under the provisions of the Federal register act (49 Stat. 500, as amended: 44 U. S. C., and supp. 301 et seq.), is charged with the custody and, together with the Public Printer, with the prompt and uniform printing and distribution of the documents required or authorized to be published under sec. 5 of this act. Such documents required or authorized to be so published are printed and distributed forthwith by the Government Printing Office in a serial publication designated the Federal register. The daily issues of the Federal register are, in effect daily supplements to the Code of Federal regulations, and regulatory documents published therein follow the Code arrangement.

Federal register. Federal register, v. 12, no. 128–149; July 1–31, 1947. [1947.] p. 4243–5248, 4° [Daily except Sunday, Monday, and day following a legal holiday.]
L. C. card 36–26246 AE 2.7: 12/128–149

NOTE.—The Federal register publishes (1) all Presidential Proclamations; and all Executive orders, except such as have no general applicability or legal effect or are effective only against Federal agencies or persons in their capacity as officers, agents or employees thereof; it also contains all Executive orders establishing, amending or revoking civil service rules, and all Executive orders containing a direction for publication thereof; (2) such documents or classes of documents as the President shall determine from time to time have general applicability and legal effect; and (3) such documents or classes of documents as may be required so as to be published by act of the Congress. From Mar. 14, 1936, through July 31, 1947, two hundred and forty-three (243) agencies have submitted documents for publication in the Federal register. Suitable indexes are issued monthly, quarterly, and annually. The bound volumes of the Federal register were discontinued on June 3, 1938, and have been replaced by the annual supplements to the Code of Federal regulations.

The Federal register is sold by the Superintendent of Documents on the following terms: Single copy, 15c. minimum (price varies in proportion to size); $1.50 per month; $15.00 per year. Subscriptions are payable in advance. Send remittances to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. Rural delivery routes are shown in detail on county or local maps which, with a few exceptions, are drawn to the scale of 1 : 62,500 or 1 : 63,360 (1 mile to the inch). Maps of more than 1,600 counties in the United States have been prepared by the Post Office Department and contact prints, made from the original maps on file are sold for 50 cents per copy. Each county map shows in addition to the roads traveled by rural carriers, all post offices within the county and all other roads, houses, schools, and churches known at the time the map was originally drawn, together with an outline of the drainage. A list of the county maps on file will be furnished upon application to the Superintendent, Division of Finance, Post Office Department, Washington 25, D. C. Rural delivery routes emanating from post offices in counties for which county maps have not been drawn are shown on local maps. Contact prints of such maps are sold at 25 cents each. Orders for all postal maps should be accompanied by money order and addressed to the Superintendent, Division of Finance, Post Office Department ,Washington 25, D. C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for Jan. 1947, page 103.

SMITHSONIAN INSTITUTION

NOTE.—The serial publications of the Smithsonian Institution are as follows: 1. Smithsonian contributions to knowledge: 2. Smithsonian miscellaneous collections: 3. Smithsonian annual reports. No *sets* of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to knowledge and Miscellaneous collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educatonal establishments, and learned societies in this country and abroad, and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the Smithsonian Institution. The Smithsonian report volumes and the papers reprinted in separate form therefrom are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but some of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.
The only Smithsonian publications that are regularly issued as public documents are the annual report volumes.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise an annual report and three scientific series, viz. Proceedings, Bulletins, and Contributions from national herbarium. The editions are distributed to established lists of libraries, scientific institutions, and specialists, any surplus copies being supplied on application. The Proceedings are usually brief technical papers and the Bulletins generally monographs based on the Museum collections in biology (except botany), geology, and anthropology. Contributions from national herbarium are wholly botanical. No sets of any of these series can now be furnished.

The Proceedings are now issued in pamphlet form only. The separate papers will be sent to depository libraries and to others designated to receive them, as issued, and a title page and index will be published for each volume so that the volume may be bound if desired.

STATE DEPARTMENT

NOTE.—All publications of the Department (except laws, treaties, through Treaty series 994, and translations) have, since Oct. 1, 1929, been numbered consecutively in the order in which they were sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws are first published in slip form in separate series (public and private) and are numbered within each series in the order in which they become law; they are later published in bound form in the United States Statutes at large. The Department of State publications entitled Treaty series and Executive agreement series have been discontinued. The Treaties and other international acts series has been inaugurated to make available in a single series the texts of treaties and other instruments (such as constitutions and charters of international organizations, declarations, agreements effected by exchanges of diplomatic notes, et cetera) establishing or defining relations between the United States of America and other countries. The texts printed in the present series, as in the Treaty series and Executive agreement series, are authentic and, in appropriate cases, are certified as such by the Department of State. The Treaties and other international acts series begins with the number 1501, the combined numbers in the Treaty series and Executive agreement series having reached 1500, the last number in the Treaty series being 994 and the last number in the Executive agreement series being 506. Spanish, Portuguese, and French translations, prepared by the Department's Central Translating Division, have their own publication numbers, running consecutively from 1. The Department of State Bulletin published weekly and indexed semiannually as of the dates of the last issues in June and December, contains the texts of the daily mimeographed press releases, information regarding treaties, and other material on the Department's work. The Bulletin contains each quarter a complete list of the Department's publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

For information concerning Executive orders and Proclamations of the President, formerly published by the State Department, but beginning with Mar. 12, 1936, distributed by the Federal Register Division, see National Archives, Federal Register Division, *Federal register.*

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Rainy Lake, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U. S. Lake Survey Office, 630 Federal Building, Detroit, 26 Mich. A catalog (with index maps), showing localities, scales, prices, and conditions of sale, may be had upon application at the above office.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, may be purchased from the U. S. Lake Survey Office. The bulletin is revised annually and issued at the opening of navigation (in April). Supplements thereto are published monthly during the navigation season and are sent free to all who have obtained the bulletin.

DEPOSITORY LIBRARIES

Under provisions of the law, certain libraries are designated depositories for Government publications. Through them Federal Government documents are made available to residents of every State, Puerto Rico, and the Territories of Alaska and Hawaii. Distribution to the libraries is made by the Office of the Superintendent of Documents.

It is sometimes impossible to obtain desired publications by purchase from the Superintendent of Documents. Stocks may have been exhausted or the document may be out of print. The publication is still as near to you as your nearest depository library. It is suggested that you consult it there.

The following list contains the name and location of the depository libraries. Those listed in italic type receive all publications distributed by the Superintendent of Documents; the remainder receive only those documents which they select and request.
